Positioned in a privileged bush land setting, this is a residence of distinction.

Lots of elegant entertaining area as it offers space, privacy and impeccable presentation.

High ceilings emphasise the fluid layout, with plush formal lounge and dining rooms.

The main living zone is open and bright and is angled to look to an elevated terrace, in-ground Gas Heated Pool and Spa.

Cathedral ceilings rise over the deluxe master bedroom which flows to a balcony from which to enjoy the leafy outlook.

A walk-in wardrobe, en-suite and sitting area complete this parents' retreat.

Children's bedrooms spill out to a living/study space, while a downstairs rumpus adds even more room to spread out.
