From its uplifting entry with grand staircase to its hexagonal bulkheads, this home artfully plays with light, levels and angles.

Handsome timber floors transition from the open family space to an elegantly set dining room and living room/theatre.

An eight-sided island bench with wine storage centres the striking granite kitchen.

Step out to a covered alfresco area complete with a kitchen, barbecue, sink and surround sound. It's the perfect spot to relax by the magnesium Aquastone pool with guests.

Upstairs, a suspended concrete slab promises silent foot
